CUT-RESISTANCE GLOVES

HGCG01-XL

SCAN FOR VIDEO

GENERAL SAFETY WARNINGS**⚠ WARNING!**

Read all safety warnings, instructions, illustrations and specifications

⚠ CAUTION!

This glove is **CUT RESISTANT, NOT CUT OR PUNCTURE PROOF**. No claim made for point puncture resistance.

Inspect glove before every use. Check glove for signs of wear. Replace if damaged or frayed. Never use with moving or serrated blades. Never use with equipment or machinery that may entangled the glove in its moving parts.

THE SYMBOLS IN INSTRUCTION MANUAL

	Read the instruction manual before using.
	General handling
	Construction work
	Express handling
	Repair processing
	Machining
	Assembly maintenance

INTENDED USE

- Glass handling
- Sheet metal handling
- Wood working
- Agriculture
- Food handling
- Packaging
- Dry pharmaceutical
- Auto repairing
- Small components assembly
- Electronics industries
- Semiconductor industries
- Maintenance
- General applications

SPECIFICATIONS

Model No.	HGCG01-XL
Material	Level 5 cut-resistant glove core
Coating	PU
Size	XL
Coating type	palm coating
Package	1pair/card

- Due to our continuing program of research and development, the specifications herein are subject to change without notice.

OPERATION

Care instructions

1. Do not wash with high temperature water (recommended water temperature is 10-30°C)
2. Dry in a cool place and avoid exposure to the sun
3. Must be thoroughly dried after washing

Product descriptions

- 13-gauge finely-knitted yarn gives maximum tactility for precision handling of sharp objects.
- Exceptional dexterity and comfort
- Protects hand from sharp metals, glasses, ceramics and other sharp edges
- Designed to be robust and durable
- Advanced yarn technology increases worker confidence while on the job
- Polyurethane coating improves tactile sensitivity.
- Maximum cut level: 5 (highest level)
- EN 388: 4x42C

ANSI Cut levels

ANSI*- Standards categorize cut resistant gloves on a scale that shows increasing levels of protection.

Cut level	Typical applications
5 High	• Butcher, meat packing. • Handling sharp and/or jagged materials. • Fabrication or demolition of metals or pipes. • Applications where cuts, wood splinters or lacerations are possible.
4 High	• Food chopping/processing. • Cutting ductwork or window frames. • Cutting and installing ceramic tiles. • Hardscaping or other landscaping applications.
3 Medium	• Handling construction materials such as asphalt shingles, concrete or brick. • Refuse collection. • HVAC and window frame installation. • Applications where cut risk is moderate.
2 Medium	• General warehouse receiving/packing. • Handling power tools, plumbing valves or fixtures. • Installing electrical boxes. • Handling small parts, wires or cables
