HGVW04

SCAN FOR VIDEO

SAFETY WARNING** WARNING! Read the instruction manual before using.**

- Performance levels and pictogram associated are marked on each glove.
- Ensure your gloves are intact before and during use and replace if necessary.
- Do not use out of the scope of use defined in the instructions above.
- If these gloves are meant for arc welding uses:

WARNING! They do not provide protection against electrical shocks caused by defective equipment or powered work, and the electrical resistance is reduced if the gloves are wet, dirty or soaked in sweat, which may increase the risk.

WARNING! Do not use when there is a risk of caused by moving machinery. LATEX: Elasticated wrists and latex coated gloves may cause allergic reactions.

- Performance levels based on the results of laboratory tests, which do not necessarily reflect real conditions in the workplace, due to the influence of the other various factors such as the temperature, the abrasion, the dissipation.

Storage/Cleaning instructions

The design performance is not significantly affected by ageing if stored away from light in a cool and dry place. No special maintenance is recommended for these types of gloves.

INTENDED USE

Suitable for welding and cutting operation, general-purpose, carriers, the operation of machines.

Benefits

- Premium royal leather exterior provides excellent heat resistance, comfort and durability.
- Continuous leather reinforced seams and Kevlar stitching to increase longevity.
- Leather palm reinforcements improve durability while the cushioned palm improves grip and reduces hand fatigue for all day comfort.
- Moisture absorbent inside cuff liner for all day comfort.
- Soft sweat absorbent twill lining for superior comfort, durability and dexterity.
- Long cuff for additional wrist and forearm protection.
