AIR HOSE REEL

JDAZ3515 UJDAZ3515

**PRODUCT
MANUAL**

SPECIFICATIONS

Please read these operating instructions carefully and note the information given. Use these operating instructions to familiarize yourself with the product, the proper use and the safety instructions.

Correct use:

The Hose Reel is provided with auto rewind system and intended for use in the private home and hobby garden or car washing etc.

⚠ NOTE

The product could not be used to transmit drinking water or hot air!

Parts list:

No	Description	Quantity
1.	Hose reel	1
2.	Metal bracket	2
3.	6x10mm Screw	1
4.	6x50mm bolts	4

OPERATION PICTURE

The reel could be installed horizontally, vertically on the cement pillar, cement wall or steel structure.

1. Take out the unit and accessories from the box,
2. Choose a suitable place near source of water.
3. Take the mounting bracket as a template to mark the position for screws and drill four holes on the wall. Figure A

Figure A

Figure B

Figure C

4. Fix the bracket by four 6*60mm screws accordingly,
5. Slip the reel to the mounting bracket, then fasten it by 1*6*12mm screw.

See Figure C

⚠ NOTE

1. The reel should be installed to a wall or post horizontally.
2. It is suggested to mount the reel approximately 1 meter above the ground.

Operation

Connect the leader hose to the faucet/air source, then turn on the switch,

Unwind

Pull out hose to desired length and stop after "KAKA" sound is heard

Roll up the hose

- With the end of the hose, go back to the hose box
- Turn off the switch; loosen the connector of lead hose to release the pressure.

MAINTENANCE&MALFUNCTIONS

Storage

Cleaning

The hose box is maintenance-free and must not be cleaned internally with water.

Maintenance

- When not in use, please turn off the source of water/air, and turn on the nozzle to release the water pressure
- The reel cannot be used to transmit any chemical and substance
- When not in use for an extended period of time it is recommended to be stored in a cool dry place.

Troubleshooting

- During the process of retracting / pulling out the hose. If the hose is locked, please pull out more hose again, then retry the work.
